Hillcrest

Foreword from Angela Linton, Chief Executive

Thank you for your interest in working at Hillcrest. We take great pride in being recognised as Gold-accredited Investors in People and are committed to ensuring we offer an outstanding working environment and culture to attract and retain the best quality candidates.

Our core organisational aim is to help people live better lives. We achieve this by providing safe, high quality homes at affordable rents, and by helping to build sustainable communities where people want to live and thrive. We also deliver creative and responsive care and support services to individuals with a range of diverse needs, contributing to wider social, economic and environmental wellbeing within our areas of operation in Scotland.

We are delighted to say that all the companies in Hillcrest are now 'Real Living Wage' employers - a voluntary accreditation linked to an independent calculation which ensures all our employees earn enough to have a decent standard of living.

I am extremely proud of the dedication and commitment of our teams to providing such a high level of service to our customers, and look forward to welcoming new colleagues who are equally committed to delivering outstanding service.

Angela Linton
Hillcrest Chief Executive

We are Hillcrest

Hillcrest was first established in 1967 as Hillcrest Housing Association. Over the decades, we have grown and developed into a large, diverse and continually evolving social organisation. Our mission is to help people live better lives.

The companies within Hillcrest provide housing, maintenance services, support, training and employment opportunities. Our structure allows us to work together to make a positive social impact by contributing to improving the quality of life of the people and communities we work with.

Our values

Our values define what we believe in and how we go about our work. They are:

Inclusion – We listen to other points of view, learn from best practice and engage with our customers and communities as we recognise we are stronger and can contribute more if we have shared goals and collective efforts.

Respect – We value our staff and customers, and empower them in a positive way to participate, to adapt and to be inspired to take ownership and make positive change.

Excellence – We are ambitious for what our organisation and customers can achieve, and strive to deliver the highest quality and value possible.

Innovation – We look for new ways of solving problems, strive for continuous reflection and improvement, and promote others to do the same.

Our commitment to sustainable practice

Hillcrest is committed to becoming a Net Zero organisation inline with Scottish Government targets by the year 2045. This will require a critical analysis of not only our own, but our suppliers' current social, environmental and economic impacts. Our staff also have a significant role to play in reducing our carbon footprint to tackle the climate emergency.

Our sustainable business strategy involves building new energy efficient homes, and retrofitting our existing building stock, including the addition of new energy efficiency measures to create warmer, more sustainable homes. This will be achieved by installing insulation and low carbon technologies to reduce the emissions used by our customers for heating and electricity.

We are moving our fleet of Hillcrest vehicles towards being all electric or hydrogen in the future, and our staff are supported to use low carbon travel, with incentives such as pool bikes in place to encourage active travel.

Investing in our people

At Hillcrest, we recognise that accreditation with the Investors in People (IiP) standard is a sign of a great employer and shows we are an outstanding company to work for, with a clear commitment to sustainability and the development of our people.

Created to meet the ever-evolving needs and challenges of today's businesses, the Investors in People Framework gives us a tangible way to drive our business forward and indicates to our tenants, the people we support and our employees, our commitment to good business and people management excellence.

We are currently IiP Gold accredited, and we are continuously working towards achieving the Platinum accreditation, while also aiming to move from Silver to Gold for the Investors in Young People (IiYP) accreditation.

We have also established a wellbeing working group to implement an ongoing strategy that prioritises the health and wellbeing of all our employees. We understand that our main organisational asset is our people and, as such, we are dedicated to ensuring we do the best we can to improve the health and wellbeing of our employees.

Lesley Don, Hillcrest Director of Corporate Services, says: "Our staff are the most valuable part of Hillcrest and our Gold IiP accreditation is a real testament to the hard work and dedication our teams demonstrate on a daily basis.

"Feedback from staff is vital to not only help us perform at a high level, but to strive for continuous improvement and maintain our position as an employer of choice. Looking to the future, we are committed to improving further and to achieving the Platinum IiP accreditation."
